GOALS:
To inform attendees about current major issues in forensic psychiatry and afford them opportunities to refresh skills in the fundamentals of the discipline, engage in discussion with peers on the standards governing the profession, and update their present knowledge.

CME TARGET AUDIENCE:
Psychiatrists and other physicians working at the interface of law and psychiatry.

OBJECTIVES:
Participants will improve their competence or performance in forensic psychiatry in the following three areas:

1) Service, including treatment of forensic patients, development of service delivery strategies, and enhancement of consultative abilities at the interface of psychiatry and the legal profession;

2) Teaching, including new methods of training of forensic psychiatrists and classification of the tasks and functions of forensic psychiatrists; and

3) Research, gaining access to scientific data in areas that form the basis for practice of the discipline.

ACCREDITATION:
The American Academy of Psychiatry and the Law is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The American Academy of Psychiatry and the Law designates this live activity for a maximum of 31.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

LUNCH SPEAKERS

**American Injustice: Mercy, Humanity and Making a Difference**

Bryan Stevenson, JD

Bryan Stevenson, JD is the founder and Executive Director of the Equal Justice Initiative, a human rights organization in Montgomery, Alabama. Under his leadership, EJI has won major legal challenges eliminating excessive and unfair sentencing, exonerating innocent death row prisoners, confronting abuse of the incarcerated and the mentally ill, and aiding children prosecuted as adults.

Mr. Stevenson has argued and won multiple cases at the United States Supreme Court, including a 2019 ruling protecting condemned prisoners who suffer from dementia and a landmark 2012 ruling that banned mandatory life-imprisonment-without-parole sentences for all children 17 or younger. Mr. Stevenson and his staff have won reversals, relief, or release from prison for over 135 wrongly condemned prisoners on death row and won relief for hundreds of others wrongly convicted or unfairly sentenced.

Mr. Stevenson has initiated major new anti-poverty and anti-discrimination efforts that challenge inequality in America. He led the creation of two highly acclaimed cultural sites which opened in 2018: the Legacy Museum and the National Memorial for Peace and Justice. These new national landmark institutions chronicle the legacy of slavery, lynching, and racial segregation, and the connection to mass incarceration and contemporary issues of racial bias. Mr. Stevenson is also a Professor of Law at the New York University School of Law.

**A Killer by Design: The FBI Mindhunters and Profiling Killers**

Ann W. Burgess, DNSc, APRN

Ann Wolbert Burgess, DNSc, APRN is Professor of Psychiatric Mental Health Nursing at Boston College Connell School of Nursing and Professor Emerita from the University of Pennsylvania. Her research began with the study and counseling of 146 rape victims admitted to a large urban hospital emergency department between the ages of 3 and 73. Three categories of sexual trauma were analyzed: rape trauma, pressured sex and sex stress. The research then advanced to the study of serial offenders with the special agents at the FBI Academy. Patterns and motives of serial sexual offenders were analyzed and a second study included the history of the genesis of criminal profiling. More recently her research has expanded to studying patterns of strangulation by stranger and known offenders to better understand the early origins of violent thinking and acting as a strategy to early intervention to decrease trauma and victimization.

**Advancing and Protecting the Health and Wellbeing of Astronauts**

Gary E. Beven, MD

Gary E. Beven, MD currently serves as Division Chief, Space Medicine Operations within the Human Health and Performance (HH&P) Directorate. The Space Medicine Operations Division is responsible for advancing and protecting the health and well-being of astronauts and the Johnson Space Center workforce to enable human exploration of space.
