AND THE LAW

# 54<sup>th</sup> ANNUAL MEETING

*“Balance”*

October 19-22, 2023 • Chicago Marriott Downtown • Chicago, Illinois

2023 PRELIMINARY PROGRAM

# AMERICAN ACADEMY OF PSYCHIATRY AND THE LAW 2023 ANNUAL MEETING

## GOALS:

To inform attendees about current major issues in forensic psychiatry and afford them opportunities to refresh skills in the fundamentals of the discipline, engage in discussion with peers on the standards governing the profession, and update their present knowledge.

## CME TARGET AUDIENCE:

Psychiatrists and other physicians working at the interface of law and psychiatry.

## OBJECTIVES:

Participants will improve their competence or performance in forensic psychiatry in the following three areas:

- 1) Service, including treatment of forensic patients, development of service delivery strategies, and enhancement of consultative abilities at the interface of psychiatry and the legal profession;
- 2) Teaching, including new methods of training of forensic psychiatrists and classification of the tasks and functions of forensic psychiatrists; and
- 3) Research, gaining access to scientific data in areas that form the basis for practice of the discipline.

## ACCREDITATION:

The American Academy of Psychiatry and the Law is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The American Academy of Psychiatry and the Law designates this live activity for a maximum of 31.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

## LUNCH SPEAKERS

### ***Forensic Practice Before and After the Trial***

Raymond Patterson, MD

Dr. Raymond Patterson is a celebrated forensic psychiatrist with some 40 years of experience in the field. He has been able to achieve an impressive balance between consultative forensic expert work and being a leader in forensic and correctional healthcare. He has served in many leadership positions in large correctional and forensic hospital systems, including the Angola State Penitentiary in Louisiana, and the Patuxent Institution in Maryland. One of his enduring career mission has been to advocate for equitable access to medical and psychiatric treatment for inmates. He campaigned tirelessly to improve the quality and delivery of healthcare in the correctional setting. He also sought to combat the negative effect prolonged incarceration has on individuals. In addition to his leadership roles, he has served as a consultant to the U. S. Secret Service, the U. S. Marshal Service, the District of Columbia Police, Baltimore City Police, and the US Capitol Police. His accomplishments earned him the 2019 AAPL Seymour Pollack Award, and the 2021 Yochelson Visiting Professorship of Psychiatry and the Law at the Yale School of Medicine. With his warm demeanor and deep commitment to humanity, Dr. Raymond F. Patterson has inspired countless individuals within and outside of the forensic psychiatric community.

### ***How We Arrived Here: Cases that Influenced How We Respond to Violent Crime***

Steven Conlon

Steven Conlon is a seasoned veteran of criminal behavior analysis. He has devoted over 45 years to law enforcement and is currently an Instructor at the FBI Behavior Analysis Unit at Quantico, Virginia. This is an elite group within the FBI that studies and consults with other agencies on violent, sometimes perplexing and disturbing crimes. Mr. Conlon has devoted his career to understanding the motive, pattern, and meaning behind offender behaviors with the goal of mitigating and preventing future crimes.

### ***A Forensic Psychiatrist's Journey***

Park Dietz, MD

Dr. Park Dietz is one of the nation's most prominent and influential forensic psychiatrists. Over his distinguished career, he has consulted and testified in some of the highest profile US criminal cases. He dedicated his career to understanding and analyzing the complex relationship between mental health and criminal behavior. He is a Past President of the American Academy of Psychiatry and the Law, a Distinguished Life Fellow of the American Psychiatric Association, and a Fellow of the American Academy of Forensic Sciences. He has served as a consultant to both the FBI's Behavioral Analysis Unit and the New York State Police Forensic Sciences Unit. Dr. Dietz has authored hundreds of articles on topics relevant to forensic psychiatry. He is the founder of the Threat Assessment Group, Inc. (TAG), which specializes in analyzing and managing threatening behavior and communications. He is widely credited for pioneering the role of forensic psychiatrist as a "forensic scientist," a non-partisan truth-seeker.
