EXPERTS

FORENSIC PSYCHIATRY CONSULTING OPPORTUNITIES

Park Dietz & Associates, Inc. (PD&A), seeks additional forensic psychiatrists.

Lawyers throughout the U.S. contact PD&A seeking expertise on a broad range of issues, and PD&A helps them understand the areas of expertise needed and recommends specialists who can address any of the issues in their case. For experts working on PD&A cases, PD&A provides mentorship, consultation from an interdisciplinary team, and forensic practice management and administrative support (telephone support, contracting, billing, and collections).

We seek outstanding and diverse candidates throughout the United States with expertise in trauma, child & adolescent psychiatry, neurodevelopmental disorders, addiction, sleep disorders, and correctional psychiatry. Candidates from the states of Washington, New York, New Jersey, California, Texas, and Florida are particularly welcome.

Requirements for consideration:

- Current unrestricted medical license
- Board certification by ABPN
- Prior testimony experience as an expert witness in 3 or more cases
- Recommendation from a PD&A Expert
- Submission of a CV and contact information
- A redacted sample report
- Completion of an online questionnaire regarding past experience and current customary fees

We invite interested forensic psychiatrists to approach Drs. Park Dietz, Alan Newman, Renee Sorrentino, James Knoll, or Andrew Nanton during the AAPL meeting to introduce yourself and express interest. If the opportunity to introduce yourself doesn't arise during the meeting, please contact Katie Calvert, Paralegal/Case Director, at katie@parkdietzassociates.com.
